

SHAKE WELL BEFORE USING.

DIRECTIONS:

TO PROTECT HOT FOOT

Hold can 6-10 inches from the surface of the gel. Apply one thin, even coat over the surface of the gel. Coating will dry in about 5 minutes.

AS A SURFACE SEALANT

Ensure that the surface to be sealed is clean and dry. Spray Crystal Coat 6-10 inches from the surface. One thin, even coat is sufficient. Allow 5 minutes to dry before applying Hot Foot Gel.

COVERAGE

One 14 oz. can will seal an area of approximately 80 linear feet by 3 inches.

DANGER:

Harmful or fatal if swallowed. If swallowed, do not induce vomiting; seek medical help. Contains no 1,1,1 trichloroethane or methylene chloride but vapors are harmful. Use in a well ventilated area. Avoid contact with skin or eyes. In case of contact, flush with water. Dried sealant can be peeled off. Contents under pressure. Do not puncture or incinerate. Exposure to temperatures above 120°F can cause bursting. Do not expose to direct sunlight. Keep away from heat, sparks or open flames. This product contains a chemical known to the state of California to cause birth defects or other reproductive harm.
